

Flat Cable Clips

Product Type:

Flat Cable Clips (suitable for a range of wires)

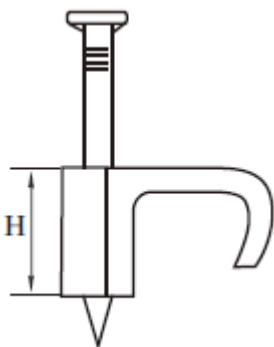

Detail:

PE(white, grey), high elasticity, impact resistance
Inserting type, nail attached in clips,

Application:

Thick steel nail prevents snapping and long length gives good pull out value. The clips boast good self-grip design and are made from high Grade Tough Polyethylene for low temperature flexibility. They also offer excellent stress crack resistance and chemical inertness. For internal and external use.
