

From a range of tradesman tubs containing a selection of fixings, fastenings and terminations. ATT2 and ATT3 contain a selection of wall plugs, screws, cable clips and cavity fixings.

### **ATT2: Red Plugs & Screws**

- 500 x Red Wall Plugs
- 500 x (8 x 1 ½) Twin Thread Screws
- Countersunk, Pozi head, Twin thread Screw with Bright zinc plated finish. Each screw has a 6mm diameter and is 34mm in length.

All-purpose wall plugs, ideal fixing for lightweight applications. Anti-rotation ribs at the head of the plug for extra holding power. High pull-out strength. The screws have a countersunk Pozi head and are ideal for use with the 8 x 1 ½ twin thread screws which are included in the pack. 500 of both the Wall Plugs and Screws are supplied and packaged in one handy, transparent re-sealable tub with carry handle.

### **ATT3: Cavity Fixings & Screws**

- 200 x Cavity Fixings
- 200 x Screws to fit Cavity Fixings
- Each screw measures 35mm. The Cavity Fixing's included in this tub are made from Self-Drilling Alloy and feature a flange which prevents accidental push through in plasterboard.

The Cavity Fixings included in this tub are specially designed for use in plasterboard and have a lightweight self-drilling design. To install, simply drill a pilot hole and screw the plug into the wall with a Phillips or Pozidriv driver. The object to be mounted is then screwed into the back of the plug as with a normal plug. For best results ensure the screw length is 20mm more than the thickness of the object to be mounted. Packaged in a handy, re-sealable, transparent tub with carry handle.
