CO ALARM

Product Code: LM-201A

Type:	Carbon Monoxide Detector
Detection Method:	Electronic & Chemical Sensor
Dimensions:	90mm x 120mm x 40mm
Power:	3 x 1.5V AA alkaline batteries
Operating Temperature:	0℃ - 45℃
Environmental Humidity:	0% - 90%
Standby Consumption:	80uA
Consumption during use:	45-75mA
Alarm:	>85dB (1 meter)
Display Scope:	25-550 PPM (±10%)
Battery Indicator	
Pause Function	
CO Level Indicator	

Parts Per Million (PPM) of CO	Time Until Alarm Activates
50 PPM	60 - 90 Minutes
100 PPM	10 - 40 Minutes
300 PPM	Less than 3 Minutes

Features:

This alarm is designed to protect you and your family from carbon monoxide poisoning.
Test button and Led indicator light
With LCD Display
Low Battery Warning
Easy to install
Up to 7 years working life span from first power up
LCD display shows the carbon monoxide particle sampling count, ambient temperature and battery level.
LED status indicators, green for power , yellow for fault and red for alarm
Battery powered to allow the unit to remain functional in the event of a power cut.
Manufactured to EN50291
Comply to ROHS Standards

Note:This apparatus must be installed according to the manufactures instruction.
