

## Holesaws

### Product Type:

Variable Pitch Heavy Duty Bi-metal Holesaws

### Details:

- Alternative set variable pitch 4/6 teeth - producing tighter grip, less vibration, cleaner faster cut
- Heavy duty bi-metal construction for durability
- Original pattern pressed gap gives full cutting depth
- M3 steel cutting edge keeps teeth sharper longer
- Shatterproof body designed for staying power
- Cuts: brass, copper, steel, aluminium, wood etc.
- Holesaws, arbors and pilot drills are fully interchangeable with all leading manufacturer's holesaw products.
