

## 10A Fused Test Lead Set

### Product Description:

ITLS 454AR 10A Fused Right Angled Test Lead Set

### Specifications:

- The ideal leads for modern digital multimeters and clamp meters
- 10A fused
- Big leap forward in safety - no need to screw and unscrew prods and crocodile clips – just push on-pull off.

### Features:

- 4mm to 4mm with long flexible lead
- 4mm fittings compatible with all products using the 4mm international standard for inputs
- 10A fuse fitted in each probe
- Straight plug at one end and angled plug at the other, which makes them ideally suited to modern digital multimeters and clamp meters

### Contents
